### Vandalism increase reported in Madoc

Police have noticed an ocrease in vandalism increase in vandalism complaints in the Madoc detachment area. Although the police are called to investigate these complaints, vandalism is

these complaints, vandausm is a community problem best solved with the help of community residents.

The police point out that unless members of the public are willing to assist the police or willing to assist the police by supplying witness state-ments and eventually going to court, the problem of vandal-ism will not be solved. Officers of the Madoc OPP detachment ask for your co-operation in putting an end to vandalism in

our community.

Madoc OPP are also investigating vandalism to the change rooms recently at the Marmora Beach. Screens were cut out of three windows and paper towels strewn about the floor in the men's washroom. Constable Brad Collins is the investigating officer.

On July 8th, at approximate-y 5:30 p.m., Madoc OPP

received a report that a young female ran across County Road 3 into the side of a passing vehicle. As a result of the investigation by Constable Bill Terc, the young person was located. She had not been injured in the mishap. Howev-er, officers remind all pedest-rians of the need to be careful around roadways and vehicu-lar traffic.

There has also been an increase reported in the number of intrusion alarms requiring police response. It has been noticed that most of these are false alarms. When this happens, a two-officer car must be dispatched to handle the call, which effectively puts the vehicle out of service for

#### Reconsiders elevator plan

The Corporation of Hamilton is ready to reconsider an offer it turned down about three years ago to have an elevator for the physically handicapped installed in Front Street's No. 1 Hamilton, Bermuda,

Although the offer came from the Women '87 Exhibition committee before Mr. Dismont took office, he promised to look into the proposal if it was presented to the corporation

Research revealed that it would cost over \$25,000", said former committee member Anna Fulton, but we were going to approach other charitable organizations such as the Junior Service League for help. Unfortunately, we never got beyond the word of mouth

stage.
Mrs. Fulton said the corportation decided that installing
an elevator at the City Hall,
which has not been done,
should take priority over the
installation of one at the No. 1

We had a meeting with the corporation and it was decided that an elevator would be installed at City Hall since it is used more regularly," she explained. "And No. I Shed was put on the back burner since it already had an scalator

However, Mrs. Scott said the committee is willing to revive the proposal in April.
"We've done everything within our power to get the wheelchair-bound moved around at our exhibition," she said. "Accessibility for them at the No. 1 Shed is certainly still a problem."
Mr. Dismont promised that

Mr. Dismont promised that the corporation would "address the proposal as soon as it is received."

Meanwhile, chairman of the Bermuda Physically Hand-icapped Association, Margaret Carter, questioned the corpo-ration's sincerity about help-ing the physically the physically handicapped.

"It took us four years to get ramps on the first floor (of City Hall)," said Miss Carter. "I don't even go to cocktails there because I have to sit down near the bathroom. And the No. 1 shed, I just knock off my list of places to go because it makes no sense to go there when I can't get to the upper level. The same goes for the public library."
Miss Carter said the corpo

ration has been very reluctant in helping the physically handicapped in the past, but she hoped that would change.

"They were very resistant when they were approached about the elevator at the No. 1 Shed," she said.

St. Pie, Que - Norwood's racing sensation, Derek Lynch drove his Cheverolet Lumina to a third place finish in the fain-shortened Budweiser 500 at Sanair Super Speedway Sunday afternoon.

Junior Hanley of Campbell-ville, Ont., took the race in his Ford Thunderbird and moved Ford Thunderbird and moved another step closer to clinching the GM Motorsport National Stock Car Series. Hanley, who has already collected a \$50,000 bonus for winning the Bud Triple (Sanair, Mosport Park and Riverside Speedway in Nova Scotia) extended his lead in both the GM Motorsport National Stock Car Series and the overall American Coors Tour (ACT) standings with his

more rounds left in the series. He is in 5th spot in the ACT points standings five points behind Beaver Dragon of Milton, Vermont. They have completed 15 of 21 races.

Hanley led 140 of the 151 laps in the scheduled 300-lap main event. Dragon, in a Pontiac Grand Prix, was the only other driver to be out in front, leading laps 101 to 111, when Hanley took advantage of a yellow caution flag to pit for gas and new tires.

However, a heavy rain storm hit the south of Montreal on lap 107 bringing proceedings to a halt for 1 1/2 hours. When the track finally dried out, the cars returned to the track under a

yellow flag.

Just prior to the restart,
however, Dragon and MacDonald made a quick pit stop for gas and new rubber virtually handing the lead -- and the race to Hanley.

"We new we couldn't go the entire way without stopping for gas, Hanley said. "I was look-ing for a chance to pit when there weren't many cars on the lead lap so I wouldn't lose too

many poistions."
"I think if Dragon had pitted at the same time as me instead of waiting it would have been a real fight to the finish. He and

real-fight to the finish. He and Randy probably would have run out of gas if they hadn't stopped when they did because of all the laps we did while trying to dry out the track." Hanley stands a chance to win another \$100,000 in bonuses if he can stay hot. The best thing to do hazardous wastes is to take them to a special collection centre or depot. Several Ontar-io cities have set up permanent depots. Smaller communities are getting into the act by holding household hazardous waste collection days.

The recession, cross-border shopping, the seven-per-cent Goods and services Tax-this triple whammy, has played no favorites in its assault on all sectors of the Canadian economy

economy.

The once healthy tourism industry, for example, has been a prime target as Canadians are venturing to the United States in record numbers, spending their money and vacation south of the 49th parallel. On the other hand, because of taxing reasons. American afen't as reasons, Americans afen't as eager to shop for gas, clothing and food here, which hurts as Yankee dollars have always been a huge source of revenue for Canada's tourist industry.

Not anymore. Tourism is down almost 10 per cent from last year and tourism opera-tors are watching their busi-ness drop to levels not seen since the 1981-82 recessions. And cross-border shopping continues to exact a heavy toll on thousands of small businesses across the country. So what

can be done?

Well, not much if you put your trust into the hands of Federal Minister of Small Business and Tourism, Tom Hockin, and his Minister of Revenue colleague, Otto Jelinek. Together, Jelinek and Hockin form the brains behind Hockin form the brains beauto the federal government's attack on the precipitous drop in tourism and the soaring level of cross-border shopping. On occasion, Jelinek has been seen popping up in towns and cities across the country

holding meetings with civic mayors and provincial politi-cians in an effort to come up with solutions to this "made in with solutions to this "made in Canada" tax revolt. He has managed to keep a straight face while saying the "GST" is not a factor in people's deci-sion to shop in the U.S."

Whether he believes what he says, the latest poll by Angus Reid shows almost half the respondents shop south of the border specifically to avoid paying the GST. Jelinek's measures--fast-track lanes, measures-tast-track lanes, heavier fines for smuggling, and the yet-to-be launched (in Ontario) a federal-provincial sales tax collection sales tax collection arrangement--have merely bandaged the hemorrhage and the shoppers' stampede continues unabated (5.2 million one-day shoppers in May of this year, a 19.6 per

cent jump over April).

For his part, Hockin has tried to address the drop in tourism and the American and the American antagonism towards excess taxation with GST rebates for travellers to Canada. He has called the GST rebate "one of the most generous in the

are provided only after the person(s) have returned home. Canadian tax dollars end up being spent outside of Canada by non-Canadians. Hockin also saw fit to commission a survey of Americans' views of Canada as a travel destination. The findings showed our neighbors from the south consider Cana-da at least 20 per cent more expensive than a holiday in the U.S.

What Hockin and Jelinek what Hockin and Jeinek have stubbornly refused to acknowledge is that businesses along with consumers are carrying heavy tax burdens which play into the hands of lower-taxed U.S. firms. Until all levels of government admit that the high taxes are a large part of the problem, the other so-called solutions are only public relations initiatives.

### Students get congratulations for completing C.P.R. course

By Maureen Dikun

The Campbellford-Seymour Heart and Stroke Foundation congratulates the students of Campbellford District High School who completed the course in Cardiopulmonary Resuscitation (C.P.R.) at the end of the school year.

Forty-six students partici-pated in the course. It was made possible by the donation of \$200 from the Northumberland Arts and Crafts Council. The excellent response from the students necessitated the utilization of many certified instructors, made possible and partially subsidized by the C.P.R. program at Campbell-ford Memorial Hospital.

This certainly offers a perfect example of three groups working hand in hand with our high school in order to ensure that at least one person in every household knows C.P.R.

It is hoped that more students will be certified in the coming months.

# Agricultural fairs important showcases, says MPP Buchanan

Agricultural fairs are impor tant showcases for Ontario farmers, says Elmer Bucha-nan. Ontario's Minister of Agriculture and Food

Urban dwellers can learn a "trban dwellers can learn a lot about farm life from the displays, presentations and craft tables, and farmers talking with consumers, and consumers with farmers," he said. The Lakefield fair was one of many Buchanan has attended and will be attending.

il over his constituency It was drizzling when he took part in the Saturday parade and official opening and talked to Lakefield fair goers. Bucha-nan said the farmers weren't complaining about the rain When one woman said she'd been praying for rain, Buchanan asked her if she took full

nan asked her it she took tun responsibility for the drizzle "Absolutely." she replied. "though I'd-hoped for more!" Farmers told Buchanan they were glad the Premier had not moved him to another

ministry
"It takes time to develop initiatives in a large organiza-tion like the ministry." said the tion like the ministry said the MPP. Major changes don't come easily. But things I've started are beginning to happen, to the advantage of many in the agricultural community, and among

consumers Following the holiday weekend, it was "back to work" for Buchanan, this time in Simcoe County where he met with the County\_Federation of Agriculture, holding a media conference to answer questions on government poli-cies, and meeting with Holland Marsh, farmers: Then the minister met with potato grow-ers at a Potato Festival.

During the rest of the week, Buchanan was in Toronto to

field questions from tobacco growers, took part in a telephone conference call with the head of the Ontario Milk Mark-eting Board and met with MPP Pay Hayes on farm finance

policy choices.

Returning to HastingsPeterborough, Buchanan held

meetings with various groups on waste management issues, problems with government agencies, child care develop-ment, conservation and rail-way lines being converted to trails. It was a typical week for the minister. the minister.

Cont'd from page 3A they can continue to serve Norwood and district and enjoy similar participation in the various activities planned for the coming year.

### Celebration to mark 150th anniversary

The county of Peterborough celebrates its 150th anniver-sary Saturday, August 17th and celebrations are scheduled to take place in Victoria Park

from 2 to 4 p.m.
The festivities get under way with the re-dedication of the recently-restored fountain, followed by a birthday cake and tours of the County Court House

The Court House and Victor-ia Park are located on Water rark are located on water Street, between Brock and Murray Streets: Everyone is invited to join the celebration of this special occasion.

Here's a quick quiz:
Which country produces the most garbage per person per year? The U.S.? No. Britain?
No. Canada?
Yes, Canada. According to Environment Canada, Canadians are among the most wasteful people on earth. We throw away, on average, nearly two kilograms (four pounds) ly two kilograms (four pounds) of household garbage per person, per day. That's about three quarters of a ton each

year.
Landills were thought to be a solution, with roughly 85 per cent of our household garbage going to them. But existing landfills are quickly reaching their capacity and new ones are difficult to site.

data. The Heart Smart Cooking Course, which graduated 27 participants last fall, will be held again at the Campbellford District High School starting Sept. 17th. This course will be held on five consecutive Tuesday evenings. It will include information on modifying one's diet, reading labels, reducing salt and sugar intake and knowing the difference between cholesterol and saturated fats.

The monthly blood pressure clinic will resume Friday, Sept. 20th at the public library from 1:30 to 4 p.m. Literature on healthy living and preven-tion of heart and stroke disease is available as well. This is a confidential free screening with the results being forwarded to the client's physician. Volunteer registered nurses and registered nursing assistants staff this clinic on a

regular basis.

Hypertension is a definite risk factor which can lead to heart attack and stroke but it is often a silent, hidden problem which can only be detected by

30-year-old newspapers, food and other supposedly biode-gradable materials in nearly original condition. So much for landfills.

composting in municipal scale facilities is another solution with a much brighter future that is gaining converts in Canada, the United States and abroad.

Already the United States is processing between 3 and 5 per cent of its annual solid waste cent of its annual solid waste into compost. With the potential to reduce 'household garbage going to landfill an astonishing 60 per cent, composting is one method of recycling being examined by various municipal governments across Canada.

really Composting is really biodegradation-only faster. In the composting process, compostable materials such as leaves, food and soiled paper are consumed by microbes and transformed into a soil-like substance called humus or compost Waste-derived compost has several valuable uses-as a soil conditioner or mulch. As a mulch on top of the soil, compost helps to control weeds, and when tilled into the

weeds, and when the moisture soil it helps to retain moisture while allowing good drainage. Furthermore, compost helps nutrients cling to soil particles,

reducing the need for chemical fertilizers. It also protects the roots of plants from temperature fluctuations in both winter and summer. Roots are able to penetrate, in both winter and summer. Roots are able to penetrate deeper, resulting in healthier plant growth.

With municipal scale composting, the first stage is either curbside collection and sorting being a compost container similar to the "blue container similar to the "blue box" or sorting after collec-tion at a facility. All non-compostable materials-glass, plastic, metal and stone-are sent to be recycled or to a landfill; organic or compost-able materials-grass, leaves food, soiled paper-to to the municpal composter. In Canada there are current-ly several coinposting facili-

In Canada there are currently several coinposting facilities in the planning stage. To aid this growth, Procter and Gamble has allocated \$3.5 million towards the research and development of composting in Canada. This is part of a \$23 million global commitment by the company to help speed the widespread adoption of municipal solid waste compositing.

municipal composting The Region of Hamilton Wentworth in Ontario has received technical and

communications support as well as a grant from Proctor and Gamble to help them in their plans for developing a solid waste composting facility.

### Couple starts new bed and breakfast

The Foxcote Farm Bed and Breakfast just opened its doors last weekend. The farmhouse is on Highway 62 just south of Madoc. Chuck Mowat, and Phyllis Canning said they started the bed and breakfast to regain the contact with adults and children like they had during their careers as a principal and teacher.

#### by Jeff Wilson

In an attempt to regain the close contact they both had in their jobs, retired couple Phyl-lis Canning and Chuck Mowat have started a bed and

Mowat who is a retired principal of the Marmora senior public school, and Canning who is a retired teacher from a school in Tweed, said they both miss the close contact they experienced with adults and venture will allow the regain this contact.

"We're treating this as a retirement project," Mowat said.

Another reason for opening the bed and breakfast was because they both enjoyed their stays in similar establishment during their bike trip through England.

"We think we will be able to meet a lot of people through the bed and breakfast," Mowat said. Another reason for opening

The Foxcote Farm Bed and Breakfast offers three rooms for accommodation. As well as a bed and a breakfast the couple are offering the use of their sauna and shower room for those who can't make the big step into to the bath tub. The fee for the night is \$45 for a double and \$35 for a single; and since they are running the bed and breakfast out of their home the couple does not have to charge provincial sales tax home the couple does not have to charge provincial sales tax or the goods and services tax. The couple intends to run the bed and breakfast as a season-al business, openig in May and closing in October for the winter

Since the bed and breakfast is on a farm the couple joined the Ontario Vacation Farms Association.

The bed and breakfast offers a really nice farm setting, with horses, and in the future Mowat said he would like to put in a pathway to a pond also located on the property.

The couple also intend to become members of the Feder-ation of Bed and Breakfast Association.

# Norwood High students experience the poverty of third world in Jamaica

A lot of these kids couldn't do anything, she explained. They don't get a lot of stimulation in their lives.

The Jamaica Self-Help

The Jamaica Self-Help volunteers, in this case Becky, would be something of a godsend to these youngsters because she was able to take them on outings to the zoo, to the beach and to children's playgrounds.

Normally, she lamented, they don't get out of the orphanage. Pam will never forget the old

age home and its residents – where she spent her mornings – or the school that occupied her afternoons.

The old age home, with its nearly 70 "street people" residents, was run by five Catholic sisters and is "understaffed with underqualified" workers, Pam says.

It was depressing until I got to know three or four of the

"And it was supposed to be a

"And it was supposed to be a clean place."
As unbelievable as it may seem, they had no mops, Pam says. They just don't use them. Consequently, it took her 2 1/2 hours to "mop" with straw brushes and got the job döne that others would not do. Pam also recalls a "crazy woman who worked there and was always yelling at the walls."
She shoved wheel chairs into

they could use treat their dry, flaky skin."
"They were finally able to sleep," she said. "It felt worthwhile after doing it."
Pam's schoolroom experiences, with kids from kindergarten to grade six, were just as unjoue as unique.

The "teacher" couldn't read

a Dr. Seus book, she said. She said that 70,000 kids

graduate from grade nine and 40,000 of them will be illiterate.

They need more qualified teachers, Pam said.
At the moment, there are

two Canadian teachers in this part of Kingston who have set up a library and are doing remedial work.

These Canadian teachers rnese Canadian teachers were scheduled to return to Canada this year but, ironically enough, because they are paid in Jamaican dollars they can't afford the flight back and remain there another

year.
The school was constantly being broken into and pencil sharpeners, chalk and pencils

They would steal everything

nice, carefree and relaxed. I didn't use my watch once, Pam said. You just get used to it—it's slow and laidback. The conditions, which include constant patrols of camoflauged policemen carrying AK-47's, are often beyond their own control. "The police are feared and hated," Mike said. Certainly a highlight of the Jamaican stay, was the camping trip they helped run for 15 of the White Wing kids—kids who had never been outside of the city.

who had never been outside of the city.

The trip took them right around the country.

They were the best-behaved kids, Pam said. They were in awe of everything.

"They were really, really good kids," Beeky said. "They weren't expecting these things so they couldn't be so they couldn't disappointed."

All of their faces were pressed against the window of the van looking at the mountains, Becky remembers.

The people there have a lot of problems and that (violence, gun use) is their outlet, Becky said, adding that there was always a fight outside the old age home.

Did you get through 1987

Did you get through 1967 without an accident?

If you did, you weren't quite as lucky as a lottery jackpot winner but you were more fortunate than about 3.8 million of your fellow Canadians

If you were among the one in every five people age 15 and over who had an accident in 1987, Statistics Canada figures 150. Statistics Canada figures show it is most likely that it happened either while you were in a motor vehicle, while playing a sport or while you were at work.

Over all, the figures from a special survey demonstrate that men had a higher accident rate than women. The highest probability of being an acci dent victim went to young men age 15 to 24-at 27 per cent compared with 19 per cent for a total adult population.

But the rela-tive importance of accidents as a cause of death increased through the years and the importance of other causes of death diminished, probably due in part to advances against medical advances against diseases. Vital statistical figures show that 13,000 persons 15 and over died as a result of accidents in

The survey found a definite link between accidents and alcohol. As well, accident prevalence rose with the amount of alcohol normally consumed.

Only 27 per cent of non-drinkers had an accident in the three years ending in January

1988. This rate of accident involvement rose to 40 per cent for those who had one to six for those who had one to six drinks a week, to 51 per cent for those who had seven to 13 drinks a week and to 56 per cent for those who had 14 or more drinks a week. A drink was defined as one bottle of beer, one small glass of wine or

5 ounces of liquor.
In accidents where injury

resulted, bruises were the resulted, bruises were the most common injury by faroccurring in 43 per cent of all cases. Cuts or scrapes occurred in 17 per cent of accidental injury cases and broken bones in 11 per cent.

Motor vehicle accidents were responsible-for 37 per cent of all reported head injuries?

#### NEW & USED APPLIANCE SALE RUNNING TILL THANKSGIVING WEEKEND

Over the winter months we have been re-conditioning appliances. We have in stock 80 used refrigerators with new compressors installed. The compressor motor is the most important & expensive part on a refrigerator. We buy compressor motors 100 at a time directly from the manufacturer. This way we can rebuild refingerators cheaper than our competition. We have just purchased 500 used fridges & stoves from a company in Toronto that we have been buying from the last 10 yrs. A lot of these refrigerators are apartment size & 2 door frost-free fridges with matching stoves. We also have 60 matching almond fridge & stove sets, ranging from 2 months old & up. We also have 100 freezers of all sizes & a big selection of washers & dryers, lawn mowers and air conditioners.

Smitty likes competition - it keeps one on their toes & prices in line. Smitty says check our competitors out & then come to Smitty's & browse thru our warehouses & see what we have to offer. You are not obligated to buy, just come & see for yourself our very clean & modern appliances. We take trade-ins. We have our own financing-with no interest & same day delivery. If you are thinking of buying or selling your appliances, see Smitty just for an honest price.

WE JUST DON'T SELL APPLIANCES, WE GUARANTEE THEM AFTER THE SALE.

cut the ribbon to officially open the location of Pat's Ice Cream Parlour.

Though it was a little chilly rnough it was a little chilfy for ice cream last Saturday morning, that didn't dampen the enthusiasm at the Grand Opening of Pat's Ice Cream Parlour.

Reeve Tom Deline, along with Owner Pat Miville and her grand daughter Michelle Malloy were on hand to cut the ribbon to officially open the

Pat's Ice Cream Parlour previously was located on St. Lawrence St. E. for four years.

Miville said she took to looks at the present location before deciding she really wanted for

She said the extra room will allow her to expand her party favors line. Miville also said she will be able to provide a helium balloon service that previously could only be previously could only be obtained by travelling to Belleville.

The new location on Durham Street will also give the busi-ness more exposure, Miville said. She said a lot of people don't venture around the

corner onto St. Lawrence St. E to see what stores are located

Pat's Ice Cream Parlour moved from the St. Lawrence St. E. location to the new location at the end of July, but the official grand opening wasn't held until just last Saturday.

The extra space at the new location has also allowed for the placement of picnic tables on the front veranda, which will allow patrons to soak up the rays in the summer, as they lick an ice cream cone.

The only disadvantage to the move was the loss of the front window mural that was synonomous with the business. Miville said she probably won't have it redone at the new store, she said she would rather decorate them at different times during the year.

Along with grand opening ceremony Pat Miville was named an honorary cadet for all her fundraising efforts. The ceremony was touching and brought a tear to Pat's eye.

The study involved 28 women and 10 men with an average age of 57. The female group age of 57. The lething group had a 96 percent success rate with the collagen implant therapy. Results for men were less consistent.

"Two of the 10 men are

cured, four are improved and four have not improved," said Dr. Herschorn,

Incontinence is caused by bladder irritability and/or deficient urethral support struc-tures and muscles. It is often tures and muscles. It is often seen in women after labor and delivery, and after meno-pause. Three out of four indivi-duals experiencing inconti-nence are female.

Anyone wishing more infor-mation about collagen implants should contact their family doctor or urologist.

A contribution from "Jean on

Faced with two large boxes raced with two large boxes of fast-ripening tomatoes, Jean remembered this recipe from her mother, who created inter-esting ways to make full use of everything she grew.

#### Tomato Marmalade

4 lbs. ripe tomatoes 4 oranges 1 lemon 4 lbs. granulated sugar

Skin tomatoes and chop fine. Cut oranges and lemon finely, leaving rind on. Place in large saucepan; bring to boil, stirring frequently. Boil 5 minutes; add sugar and continue boiling until it jels, approximately 1 hour. Pour into hot sterilized jars. Seal. Makes 6 pints. Serve with meats or on toast.

#### Ripe Tomato Ketchup

8 quarts tomatoes, cut up 3 quarts apples, quartered 6 large onions, finely chopped

Boil together until soft, then put through a ricer or sieve.

4 cups sugar 3 1/2 cups white vinegar 2/3 cup mixed pickling spice tied in a bag 3 or 4 tablespoons salt

Jean puts all this in her roasting pan and boils it for-several hours, stirring often as it thickens. She pours it into sterilized bottles

Chow, see you next week.

# Whisperin' Bill Anderson

Once again the Lindsay Central Exhibition has struck

Central Exhibition has struck it rich in talent to headline its country show at the grand-stand Thursday, Sept. 19th.
Grand Ole Opry star Whisperin' Bill Anderson and his renowned Po Folks Band will be on the store storing at 8 be on the stage, starting at 8

Anderson, born in South Carolina in 1937, was trained initially as a journalist and obtained a B.A. at the Univer-sity of Georgia, singing and working as a disc jockey in his spare time.

working as a disc jockey in mo-spare time.

His career as a professional singer suddenly blossomed in 1958 after country superstar Ray Price heard Anderson singing his self-penned song. City Lights, on a car and immediately recorded it for himself.

Soon after, the name Bill Anderson, the songwriter, was known all over Nashville, and other artists, including Hank Locklin, Porter Wagoner, Jim Reeves, Faron Young and Jean Sheppard were making hits of his songs.

While Anderson's own recordings on Decca were doing well, his real breakthrough as a recording artist came in 1962 with a crossover hit, Mama Sang A Song, soon to be followed by Still, Eight by Ten, I Get The Fever, For Ten, I Get The Fever, For Loving You, Wild Weekend.

The Corner Of My life and

Quits, just to name a few.

Perhaps the biggest hit recorded by Anderson was Po recorded by Anderson was Po Folks, now also the name of his band, and a chain of popular restaurants. Anderson has also appeared in countless (includ-ing his own show syndicated in 126 U.S. cities), several ing ins own snow sylintated in 126 U.S. cities), several movies, and was the first to ever broadcast a live British country concert over U.S. airwaves via satellite.

Bill Anderson's 'meteoric
rise to the top of the country
music world was suddenly
struck by a 1984 tragedy.
That's when a teenage driver,
reportedly so drunk he later
couldn't recall taking the
wheel of a pickup truck,
slammed into a barely moving
car driven by Anderson's wife car driven by Anderson's wife Becky. Though Becky clung to life, she suffered severe head injuries

Anderson's autobiography.
"Whisperin' Bill", describes
the agonizing months he had to
face, trying to be both a father
and mother to his six-year-old son who suffered a ruptured disc in his back that left him in pain for two years; souring business investments, an older daughter with cancer, and the emotional court battle over the

auto accident.

Somehow Bill and Becky

#### NEW & USED APPLIANCE SALE RUNNING TILL **THANKSGIVING** WEEKEND

Over the winter months we have been re-conditioning appliances. We have in stock 80 used refingerators with new compressors installed. The compressor motor is the most important & expensive part on a refrigerator. We buy compressor motors 100 at a time directly from the manufacturer. This way we can rebuild refrigerators cheaper than our competition. We have just purchased 500 used fridges & stoves from a complany in Toronto that we have been buying from the last 10 yrs. A lot of these refngerators are apartment size & 2 door frost-free idges with matching stoves. We also have 60 matching almond fridge & stove sets, ranging from 2 months old & up. We also have 100 freezers of all sizes & a big selection of washers & dryers, lawn mowers and air conditioners.

Smitty likes competition - it keeps one on their toes & prices in line. Smitty says check our competitors out & then come to Smitty's & browse thru our warehouses & see what we have to offer. You are not obligated to buy, just come & see for yourself our very clean & modern appliances. We take trade-ins. We have our own financing with no interest & same day delivery. If you are thinking of buying or seiling your appliances, see Smitty just for an honest price.

WE JUST DON'T SELL APPLIANCES, WE GUARANTEE THEM AFTER THE SALE. THERE IS A DIFFERENCE

# Councils will welcome disentanglement: MPP

Municipal leaders in this riding will welcome the Ontario government's move to disentangle provincial and munici-pal responsibilities, says local MPP Elmer Buchanan.

"As I've met with our reeves and councils, they've asked for changes that would clearly identify what programs are the responsibility of each level of government," Buchanan said

responsibility of each revet of government," Buchanan said in a press release.

The Hastings-Peterborough MPP says paying for welfare services will be one area of discussion, adding that this includes what is to be paid for out of correctly taxes.

out of property taxes.

At present, some programs are cost shared while others are paid 100 per cent by one or the other level of government. There are 15 ministries and more than 100 conditional grant programs. This makes

the relationship between the two levels of government unwieldy and frustrating, says David Cooke. Municipal Affairs Minister.

"The goal is not to spend more money," Buchanan said. "The exchange of services and responsibilities is to have a neutral impact on costs at the local and provincial levels."

Buchanan expects area reeves and councils will continue their discussions with continue their discussions with him about which level of government should be respon-sible for designing, delivering and paying for the programs and services people want and need.

The steering committee for the project will consist of six municipal representatives (appointed by AMO) and six cabinet ministers.

# Pharmaceutical research spending up 10 per cent

The federal Conservatives say a bill they passed in 1987 has helped increase research and development in the Canadian pharmaceutical industry.

Research investment made Research investment made in 1990 totalled \$281.3 million, representing 8.8 per cent of sales, which is a 15 per cent jump over last year, says a press release from M.P. Bill Vankoughnet.

vankoughnet.
"These conclusive results prove the pharmaceutical industry has already kept its promise to increse R and D investment in return for increased patent protection in the Patent Act (Bill C-22)."
Vankoughnet says. "Bill C-22 was passed in 1987 despite the opposition of the Liberals and opposition of the Liberals and the NDP who stalled passage of the legislation for over one

year in both the House of-Commons and the Senate."

Commons and the Senate."
Vankoughnet was basing his
comments on a study recently
released by the Patented Medicine Prices Review Board, a
government research body.
The Pharmaceutical Manufacturers Association of Canada (PMAC) have publicly
committed to increasing their

committed to increasing their R and D spending up to eight per cent of sales by the end of 1991.

They are well on their way to ache ving their 10 per cent objective set for 1997.
The release notes that investment in the area of basic

research increased 31 per cent

"This should silence critics of the Act who claimed that the

pharmaceutical Canadian industry is merely an outlet for clinical testing." Vankoughnet

He also believes the act is having a beneficial impact on consumer prices for drugs and

health care system costs.
"In the period before Bill C22, drug prices were climbing annually by at least two percent more than inflation." Vankoughnet says. "Since passage of that Act, drug price increases have closely matched inflation."

The report confirms that the Board is efficient in providing consumer protection against unfair drug price increases, he

# Hospice holds logo competition

The Heart of Hastings Hospice recently conducted a contest to create a new logo for the hospice.

Requests were sent out to the Centre Hastings schools asking that the students of the area take up this challenge, with the winner of the competition to receive a \$50 prize.

The provisional board of the

hospice received numerous entries which made its chose difficult, so it decided to award

two supplementary prizes.

The winning logo was created by Amy Stewart of

RR3 Tweed, who was also a student at Centre Hastings Secondary School (CHSS). Her logo depicted two people within a house reaching toward each other offering comfort and help. Hospice Chairman Rev. George Beals said a sign will be created with the new logo, and it also will be used on stationery and letterhead.

Two supplementary prizes also were handed out to Amanda Francis, a Grade 6 student at Madoc Public School, and Jean Horton, a Grade 11 student at CHSS. For her artwork filled with a rainbow and declaring "Help the and declaring "Help the Hospice", Amanda received a \$10 prize. Jean received a \$25 prize for her logo entry.

# Swimathon raises money for pool

Though the water was a little chilly last Saturday, it didn't deter members of ... swimming lesson classes from raising some money for the swimming pool.

Members from all the different swimming levels took turns either swimming as many laps or bobs as possible in an alloted time. For example, the Yellow to Orangelevels had to bob as long as they could. Red to Maroon levels had to do widths for 15 minutes; Blue to Green had to do lengths for 20 minutes. Grey fo White had to do lengths for 30 minutes and Bronze had to do lengths for 45 minutes.

The swimathon participants attempted to get as many pledges as they could. People sponsoring the participants pledged an amount for each bob or lap of the pool completed.
